

Alien 938A 60W

kategoria: Kategorie > Lutownice - Soldering irons

Kod QR:

Ceramic heating element of homemade, LED Digital indicator ensures accurate temperature display, have temperature error adjust function. Worldwide commonly used brand name of soldering tip and heating element for easy replacement.

Light handle.

ESD safe by design, prevent leak by static to damage delicate SMD organ.

Lock screw prevents inadvertent changes to the temperature setting.

Especially suitable for mounting and reworking SMD components by hand, repair, soldering common and directly-inserted electronics and soldering under other special conditions.

Power: 60W

Soldering iron voltage: 24V AC

Temperature control: 200-480 grade

Ground Resistance : 2ohm
