

RMS NCV temperatura PCW02B

kategoria: Kategorie > Mierniki - Multimeter

Kod QR:

CAT III 600V Display 6000 counts True RMS (actual value measurement) Auto range and smart measurement function: the device automatically detects the desired measurement (continuity, voltage, resistance) and selects the correct measurement range/function The device warns the user if the probe is in the wrong input socket Measurement of AC/DC voltage, AC/DC current, resistance, capacity, frequency, duty cycle; Room temperature display NCV (non-contact voltage detection), live line, continuity and diode test Double insulation and ceramic safety Removable rubber case with damping function for extra protection Large LCD display with backlight Data retention function and LED work light Innovative design and 4-button operation concept: like a smartphone Great packaging design and manual with pictures in different languages: EN, GER, ES, FR, PT, PL, IT, GR WHAT THE; EN61010-1,-2-030,-2-033; EN61326-1,-2-2,-3-2,-3-3; EN61000-3-2,-3-3; ROHS: 2011/65/EU and amendment 2015/863/EU Includes batteries, high quality test leads and carrying case
