

## Opticum Red Eagle ZASILACZ 12V PS-2 Power Supply PS-2

kategoria: Kategorie > OPTICUM Red Eagle

This is a 12V DC power supply ideal for powering any main amplifier or several main amplifiers in cascade, or other linear amplifiers, provided that the total voltage does not exceed 300mA.

Technical parameters : Frequency : 5-1000MHz Input voltage : 220-240V 50/60 Hz Output voltage : 12V DC 0.3A max Current consumption without load : <0.3W Current consumption under load : 3.6W max Connector type: F plug socket Loss of signal input : 0.5 dB
